

OSARTIS® GmbH – new company name of aap Biomaterials GmbH starting July 1st, 2018

aap Biomaterials GmbH is a medical device company based in Dieburg, Germany.

For more than 20 years, the company is focused on the development, registration and production of biomaterials and PMMA bone cements.

Since May 2016, **aap Biomaterials GmbH** is newly positioned in the Demetra Holding and is operating independently in the fields of indication of orthopaedics, trauma and spinal surgery for its trading partners and customers all over the world. To put an emphasis on this independency and new policy, the change of the company name has been decided, which will be implemented in two steps.

During the first phase in October 2017 we have released the new logo **OSARTIS®** and the new corporate design. Our current website **www.osartis-bio.de** is accessible for our customers and business partners and all employees of **aap Biomaterials GmbH** are available under the email addresses **@osartis-bio.de**.

On July 1st, 2018 the second phase will be started with the official name change of the company into **OSARTIS® GmbH** documented in the German Commercial Register.
